FALL - WINTER

cabaia.com

WELCOME

Cabaia was born in the heart of Paris and represents ingenuity and sustainability through its accessories.

We are dedicated to reducing our environmental footprint and always strive to be kinder to our planet. While we originally became famous for our unique beanies with interchangeable pompoms, we have since broadened our horizons. We are proud to offer a wide range of luggage products, perfect for the modern traveler. Overall, our products are designed to make your life **AMAZING EVERYDAY**.

Join us in our journey towards creativity and sustainability, where every product is a step towards a more vibrant and responsible world.

CORPORATE SOCIAL RESPONSIBILITY

ENVIRONMENT AND ETHICS

« Looking for a fashion brand that cares about the environment and animal welfare? Look no further than Cabaia. As a certified B Corp™ company, Cabaia is dedicated to sustainability, transparency, and social responsibility. »

This certification is one of the most demanding and difficult to obtain. It took us two years to be certified! Amandine, in charge of the project, had to answer more than 200 questions and provide many proofs of our progress in ecological and social matters.

It is one of the rare labels that certifies that a company meets high social and environmental standards, and participates in a more inclusive, contributory and regenerative economy. A true hallmark of high standards!

2025 GOALS

N°1

EXCEED 60% OF ECO-RESPONSIBLE PRODUCTS BY 2026

By favoring, as soon as possible, the most responsible alternatives in our collections and for each line: recycled polyester from plastic bottle, organic cotton, vegan leather, certified materials...

N°2

SUPPORT THE UPCYCLING PROCESS WITH NEW MATERIALS

We are exploring other alternatives like recycled polyester whose material supply comes from 10% ocean waste (fishing nets, plastic bottles recovered from the oceans, etc.).

N°3

PRODUCTS THAT LAST A LIFETIME

We improve the quality of our products with each production. High-quality products are at the heart of our strategy. We are working on the reconditioning and upgrading of our products by installing a repair stand in our warehouse by 2024.

N°4

OBTAIN NEW CERTIFICATIONS

In 2024 we obtained the PETA label which approves that certified products do not contain any animal matter.

TO BE CONTINUED...

CABAÏA WORKS FOR A MORE SUSTAINABLE FASHION

Cabaïa has obtained the B Corp™ label, which is a testament to its adherence to high social and environmental standards. The company is committed to progress and transparency on these subjects. This certification is not just an achievement, but a continuous journey of improvement. Every year, we strive to enhance our practices, ensuring that we not only maintain our B Corp standards but also exceed them. This reflects our dedication to positive change and sustainable growth.

DESIGNING SUSTAINABLE PRODUCTS

We offer a lifetime warranty for most of our products.
We thoroughly test all our products for durability and use certified GRS recycled materials.

ANIMAL PROTECTION

98% of our products are certified by EVE Vegan and the remaining 2% are made from wool with the label WOOLMARK, which is the most protective and famous label in the world regarding wool. Of course, all our products are cruelty-free.

Certified

Corporation

SUPPORT ASSOCIATIONS

We have created a co-capsule collection which is available all year long. All profits are donated to the SPA in France and Tierschutzbund in Germany.

We are working with SeaCleaners. They collect plastic waste in the oceans. We make backpacks out of it. With The SeaCleaners, we were made for each other. Concerned about the environment from day one, we are very proud to be benefactors of this association that is mobilizing for the planet, and to actively support them in their actions against plastic pollution of the oceans.

Thanks to the support of our community, we've been able to donate nearly 65 000€ to the SPA and 65 000€ to the SeaCleaners in 2023. We are grateful for the opportunity to contribute and make a difference together.

CLEAN WALK WITH THE SEACLEANERS

Because actions also take place on the ground, Cabaia is mobilising alongside The SeaCleaners association to fight against plastic pollution, and is organising waste collection walk in the streets of Paris. That's almost 50 kilos of waste collected in 1 hour.

WATCH THIS

PROTECT OUR PLANET

Since 2020 Cabaia has adopted the policy of 0 plastic in its products. We replaced it with kraft paper or corn starch in our packaging.

We measure and offset our carbon emissions through green projects like regenerative agriculture.

CODE OF CONDUCT

100% OF OUR FACTORIES AUDITED

Our factories are audited to ensure compliance with the Cabaia code of conduct and with the selected standards (BSCI and SMETA). We want a transparent and ethical supply chain. These certifications guarantee compliance with working conditions (fair wages, safe and healthy workplaces etc.) and the prohibition of forced and illegal labour.

SMETA

OUR PRODUCTION CYCLE

RECYCLED MATERIALS

The interior of all our bags is textile made from recycled water bottles.

The City ranges are 100% upcycled made from plastic bottles. 50% of the Adventurer range is also recycled.

ETHICAL FACTORIES

Our factories are certified at least by one of these two labels : BSCI & SMETA. They guarantee international ethical compliance and ensure optimal working conditions.

o PLASTIC

Disposable plastic is replaced with kraft paper or corn starch in our packaging.

RESPONSIBLE TRANSPORT

We prefer maritime transport.

For one ton of goods transported:

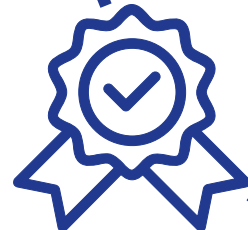

Boat: 12g of CO₂ / Train: 14g of CO₂ / Truck : 76g of CO₂

*Source : Research and traffic Group.

LIFETIME GUARANTEE

Our products are eco-responsible and resistant – made to last a lifetime ! Which is why we guarantee them for life and repair them when possible

GREEN TIPS FOR RETAILERS

We work with our retailers on some green tips that are easy to set up to improve their impact.

CARBON MEASURE & OFFSET

For less impact, we measure and offset our carbon emissions in our pledge to be certified B corp.

BACKPACKS

Since 2018, Cabaia offers a collection of ingenious, creative and sustainable backpacks.

Live your day-to-day differently by challenging the codes of the classic backpack: a wide-angle opening, clever storage, interchangeable pockets and a lot more.

OUR FABRICS

Most of our product line is made from recycled materials, below you will find all fabrics used in our bags and accessories:

INFOS & CO-BRANDING

« Help animals with amazing socks ? Yes it's possible. A 100% solidarity collection in favour of associations. »

ADRIENNE, HEAD OF MARKETING

COLLAB

CABAIA X SPA CARE & GIVE

A special SPA collection each year where all profits are donated to the association to take care of more than 100 animals. Nearly 300 000€ has already been donated to the associations since the beginning of the initiative.

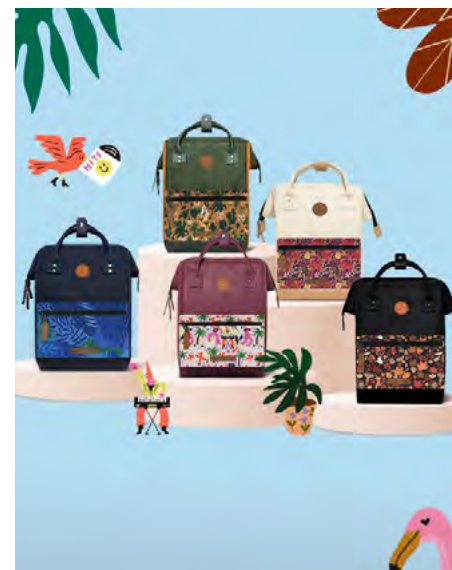

CABAIA X ROCK EN SEINE

Cabaia put on a show at the famous Parisian festival Rock en Seine at the end of August 2023, with a stand full of good vibes, virtual surfing, body painting and a wheel of fortune. The highlight of the show? A limited edition reversible belt bag specially designed in the festival colours, with €1 from each banana purchased going to The SeaCleaners association.

CABAIA X ARTY EXHIBITION

Want an arty exhibition? Our illustrators come directly to your pockets! Every year we develop a capsule collection with pop and colourful designs imagined by the cream of illustrators to transform your backpacks into a work of art!

CABAIA X PAPIER TIGRE

Papier Tigre has been the best of the best in creative and sustainable stationery since 2012. Ultra-local, they have their own production workshop in the Marais district of Paris. Without felling a single tree, they make it possible to bring original collections of functional, fun and unexpected products to life in an artisanal way. And we love that. This is why we gave them carte blanche to imagine the Papier Tigre x Cabaia collection.
